Allowable Subject Matter

Applicant's arguments, see Page 12, lines 8-23; and Page 13, lines 1-18, filed October 20, 2005, with respect to Claims 1 and 10 have been fully considered and are persuasive. Accordingly, the Office Action mailed on July 27, 2005 has been withdrawn.

The following is an examiner's statement of reasons for allowance: The prior art fails to disclose or render obvious the claimed combination including a controller that communicates with the temperature estimator, the speed sensor, and the fuel system and that shuts off fuel to the engine when the catalytic converter temperature is greater than a maximum temperature and the engine speed is greater than a maximum engine speed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
